

MG BLDC SOLAR WATER PUMPS

Murickens Group is the leading Manufacturer of MG Solar Water Pump. Solar water Pump work with the help of Solar Energy. It is an Eco friendly system used to reduce environmental pollution. MG submersible solar pumps uses solar energy from solar photovoltaic panels. It does not use any fuels. The entire system working is with the help of solar Energy.

This system operates on the solar power generated using solar Panels (photovoltaic) system. The photovoltaic array converts the solar energy into electrical energy, it is used for the working of motor pump set. This system pump out water from the well, bore well, stream, pond, canal etc. Different Models of MG Solar water pumps are available with different capacities. Solar water pump system is commonly used for residential and commercial purposes.

FEATURES OF MG BLDC SOLAR WATER PUMPS

- ▶ It uses available sun light
- ▶ No electricity Needed
- ▶ No fuel cost needed
- ▶ Eco-friendly
- ▶ Highly reliable and durable
- ▶ Easy to operate and maintain
- ▶ Reduce Environmental Pollution
- ▶ Long operating life

APPLICATIONS OF MG SOLAR WATER PUMPS

- ▶ Water for livestock
- ▶ Crop irrigation
- ▶ Drinking Purpose

- ▶ Cooking purpose
- ▶ Water supply
